SignOnSite Downloading the App

01

DOWNLOAD

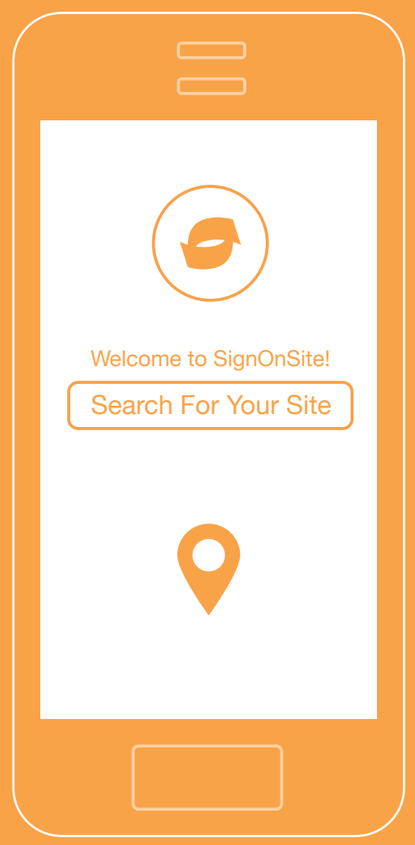
Search for and download the free SignOnSite app on your phone.

02

JOIN

Open the SignOnSite app and setup your account.

03



FIND SITE

Tap “Search For Your Site” and select your work site.

04

ALLOW ACCESS

Give permission to always allow location to be accessed* and other permission requests.

PERMISSIONS*

iPhone: When you first tap “search for your site” you must allow SignOnSite to access your location by selecting Always Allow.

Android: When you first tap “search for your site” you must “Give access” to SignOnSite to access your location.

After completing these steps, open the app > tap on menu > troubleshooting. If anything appears in red, ask your safety/site manager for the troubleshooting documentation for either Android or iOs (depending on your device).

Find out more: **support.signonsite.com.au**

*Your location is only registered when you walk on site.
